

## Vintage Garden Smalls

### Tray Assembly and Finishing

The outline lines marked on this chart are for marking fold lines. I used one ply of *Purple Haze*, but any color that contrast slightly with the fabric is fine. Alternatively, you can pull a linen thread to mark the lines.

The inner line is 12 threads (or 6 spaces on the chart) from the outer edges of the stitched design, and is the fold line for creating the sides of the tray. The outer edge is 40 threads (20 spaces or about 1-1/4") from that first line, and marks the finished edge of the tray. You will need to add a seam allowance here for finishing.
